CALIFORNIANS are told by the San Francisco Call that, if they want five cent pieces, they must get over their prejudice against the nickel, as there are not enough silver pieces to answer the

Dg. I. I. HAVES has introduced in the New York legislature a bill to establish at the lower end of Manhattan Island a grand underground railroad depot and to tunnel the Hudson river so that the great trunk lines could enter New York.

SAILS are recovering semewhat of the estimation that ten years ago they threatened to lose entirely. It is found one who had previously so addressed Cause known to be hogs and dogs. During

A REAL telegraph has been invented by an English mechanical engineer. A writer in London moves his pen, and simultaneously in Brighton another pen is moved in precisely similar curves and motions. The writer writes in London, the ink marks in Brighton. The pen at the receiving end has all the appearance of being guided by a spirit hand. The apparatus is shortly to be made public before the society of telegraph engineers.

THE common horse-chestaut is capas bu ble of furnishing several useful products, which are regularly manufactured in several localities in Europe. The seeds contain over thirty-six percent, of starch -250 pounds of the seeds yield 100 seter. pounds of dry starch. Paste made from the starch is extremely adhesive, and is not attacked by insects. It is also used for producing certaing kinds of distilled liquors.

GEN. SHERIDAN received recently from Ben Clark, the interpreter and two dollars per bushel. scout at Fort Reno, a handsome Indian trophy, in the shape of bow, and arrows twenty members in Little Rock, Ark. and quiver. The quiver is a unique specimen of Indian art. It is made of a beautiful soft panther's skin, decorated with bits of red flannel. The tail is ornamented with b ad work, and the huge bay, an immense body of swamp land. claws are preserved at the bottom of the bow case. In the quiver are several arrows, which are of Indian manufacture. with the exception of the heads, which are of iron made by Yankee machines and sold to them by the traders.

PACIFC coast whaters set forth from their winter quarters early in the spring, provisioned for a cruise of at least alk months. The crews number about thirtyfive men, a force sufficient to man four or five boats. The number of boats carried depends on the locality of the hunt from the tramp set in the Texas senate, and went into executive session. When the ing ground and the nature of the whales | the penalty made thirty to ninety days' imto be captured. In the extreme north whales never attack a boat, but in the south they do so frequently. The Last Arrew.

During the excedition of the French against the considerate five nations in New York, in 1696 the following incident occurred Kloda o, a Mohawk chiel, had or his wife a beautiful halfbreed girl, whose father was said to be "I have never seen any, and have no less a personage than the governor-"We can not convert each other, I small party of seven, marking the course Here our talk ended. I take pleasure valiant chief had lost both his tomalife must tell for the loss of each arrow. As I believed then, I believe now, Two arrows were sent whistling from out she will want to know why they

imply possesses to a remarkable degree heard, and looking flown they discovered gers, and aimed it at the leading one of cuirses of the officer, and glanced off Virginia to assist his old mistress who harmlessly, but transfixed the heart of raised him and taught him how to read, the scout, who, in his dying fall, grasped and who is now living in straitened cir. Lake, Utsh, on the 24th, for the Morthe sword chain of the chevalier, and the cumstances. two went rolling down the glen together. The third man abandoned the "I was in the Morrisite camp on the 18th, 14th, and 15th of June, 1862. The surrender was made on the 15th. I knew Burton at that time and had known him lefters. I worked for him at the country of the last arrow.

Settle:

Pursuit. Kiodago and his beautiful before which a young fop had been standing for hours, trying to arrange a dants are still living to tell the tale of the last arrow.

Mrs. Emerson's Unraly Hens.

A pleasant story is told of Thoreau, He raised his head and shouted: 'Joseph | who could unbend occasionally, slthough Morris, where are you?' Morris step. it is conceded that as a rule, he was any. Two ship loads of American machinery "I do—to me or anybody else. I do up?"—at the same time firing three not believe that the dead friends of shots at him. Morris replied: 'I will Mrs R. W. Emerson, whose flower garmyself or any other person are coming never give up my principles; they are den was being stratched up by the hens, half a dozen Turks and as many Rusto talk to me through your wife at one eternal truth,' and that is what he dollar a visit. I hold that if they had meant when he said he would not give up. mything to say to me they would come Burton could have taken Morris with. of the ways and means, Mrs. Emerson out firing a shot if he had pleased. The bit upon the expedient of putting linen arms of the Morrieites were stacked be gloves upon the feet of the gallinaceous hind the school house, and a body of vandal. Thoreau, who had a keen sense Burton's troops were guarding them of humor, restrained the laughter which After he had shot Morris three times, was nearly choking him, and gravely, "Low cuss and wild, honey," replied ed from a spiritual stand-point, and you Burton cried out, 'Where is your pro- under Mrs. Emerson's direction, banhave wandered into the physical proper- phet now?' Just then Mrs. Swaney daged the claws of the assembled barns came rom the crowd, saying, 'Is this yard in atout linen cloth For an hour ask you a question. It your wife wishes going to be another Mountain Meadows or so the fowls did no harm, and the to tell me through the spirits, or through mas acre?' Burton shot bersiso. Mrs. Emerson bousehold were greatly pleased. her, something about an absent friend, Bowman ran up and cried, 'You blood- Finally there was heard an exultant why does she wish to hold in her hand a thirsty wretch!' Burton said that no crow. The rooster had scratched through lock of that person's hair or a letter one could call him that, and then shot his bandages and was triumphing over written by him? Do spirits need a her too. I went a little distance away nis exploit. The hens followed suit and her too. I went a little distance away nis exploit. The hens followed suit and and saw John tanks lying on the ground. Mrs. Emerson was reduced to despair, wounded. He knew me and waved his while Thoreau went to the woods, where

The Greenback Vote of 1878. We have carefully compiled from the Tribune Almanac for 1879, which gives returns from all State and Con gressional elections held in 1878, the following tables showing the complete

#### An Old Story Retold. It is hinted that Madame Anderson accomplishes her prodigious walking

looking and dressed like her takes her place while she rests and sleeps. A man in Cincinnati walked 1,000 miles in 1,000 hours by means of a "double, who finally "undid" him, for he betrayed him just at the close of the walk. The trick is a very old one. It is found among Hindoo legends of the hedgehog and the fox, a version of the hare and the tortoise. The fox challenged the hedge-hog to a race, and the hedgehog agreed. The fox started, but when

FACTS AND FANCIES.

MARY'S CHILL.

Mary had a little chill Which gave her hesps of pain: Which save her his ps of pain: It shook her back again. It followed her to school one day,

Which was mainst the rule
It made the children leach to one
Poor Mary chake in acheal

And so the teacher sunt her home, And bade her take some the, To reconstruct her system and To inquidate the bill.

What makes poor Mary have the chills.
And shake so we'll but?
Why don't she take a gross of pills.
Or wear's liver-pad? BAR RELIEF-Drinking in a samples

> armed with Russian rifles, conducting sian soldiers to the police court for "KEEP 'way from dat nigger, I tell you," said Uucle Rube to his sable daugh. ter; "keep 'way from him. He's like what de 'Postle John lived on in de wild'ness," "How's dat?" she asked.

Uncle Rube. QUESTION AND ANSWEEL

-What is the good and what is the bad?

Where is the perfectly true?

What is the end you it who, not lad?

And what, may I ask, are year?

Unproven, I feer, is your heaven above,
Life is but labor and nor ow:

Then why should we hope, and why should we

And why stoold we care for the morrow? There may be a fight worth fighting, my friend,

Though victory there be none; And though no haven be ours at the end, Still we may steer straight ou.

And though nothing be good and nothing be bad,
And nothing be true to the letter, Yet a good many things are worse, my lad, And one or two things are better.

REMARKABLE are the stories coming from Newfoundland as to the wealth of Greenback vote of that year. In the copper ore. According to these ac-States where a Greenback State ticket | counts vast masses of copper have been was nominated we give the vote of the discovered near the sea, rising above the came to Burton, when he said: "If that head of that ticket; where a State surface in lotty cliffs, easily quarried, EVERY now and then some chap writes
